Netsurf
docplus

Netsurf for the Document Management

Comprehensive and superior documentation management for HxGN EAM.
Not a simple binder, but a realtool alongside your company management.

WHY CHOOSE

doc plus:

- ⊘ Integration with other DMS (Document Management System)
- ⊘ Different access profiles for different consultation and upload authorizations, depending on HxGN EAM entities and documents
- ⊘ Automatic image compression
- ⊘ Possibility of drafting several versions of the same document
- ⊘ Creation of checklists within documents
- ⊘ Possibility of linking the various documents to other entities, e.g. to Objects or Work Orders
- ⊘ Direct support from our in-house team

Organization and practicality

All of your company's documentation at your fingertips in a **dedicated screen**, also available in a tree version to display the breakdown by class and type. It offers **tailor-made characterization**: full freedom in defining extra fields to reflect the specific needs of each, as well as the **association of documents with other entities** within the HXGN EAM platform.
